Name of Employer	Aleza Lake Research Forest Society http://alf.unbc.ca
Timing of Job	May 5 st to Nov. 28 st , 2014
Position Type	Full time – 7-month term internship appointment
Salary/Wage	Compensation: \$ 1,600 biweekly
Job Location	Aleza Lake Research Forest (located 70 km from Prince George, B.C.), ALRF offices at UNBC, and other work locations as required.
Job Description	<p>The ALRF Senior Silviculture Forestry Internship is strongly field oriented and will require the ability to work alone, as a team member, and as a crew lead. Projects planned for 2014 include but are not limited to:</p> <ul style="list-style-type: none">Forest Planning and Stand Assessments<ul style="list-style-type: none">• Strategic assessment of 25-50 year old plantations and second growth stands, including the development of treatment recommendations• Silvicultural projects for the enhancement of forest productivity• Forest inventoryOperations and Silvicultural Obligations<ul style="list-style-type: none">• Road maintenance• Mechanical brushing and other silvicultural treatments as needed• Silvicultural surveys and assessmentsForest Research<ul style="list-style-type: none">• Installation and re-measurement of various research trials• Assist diverse research projects as neededEducational Programs and Infrastructure<ul style="list-style-type: none">• Design and layout for various forestry demonstration sites.• Maintain and upgrade trail system• Hosting of various tours and educational events
Job Requirements	<p>This internship is a non-union, full-time predominantly field-oriented term position based from Prince George, British Columbia (7 months). Due to external funding support criteria, the position is restricted to university or college (technical) students currently enrolled or graduating this year with a natural resources management – forestry program or closely related program. The workweek is 40 hours, usually Monday through Friday, although modified work schedules may be required from time to time. This position is strongly team-oriented, and requires a broad range of interests related to the job duties. Applicants are expected to have experience or knowledge related to forest mensuration, silviculture, plant identification, forest soils, and forest management practices. Forestry experience or focus in Northern BC will be an asset. The successful applicant will be self-motivated and enthusiastic. Strong attention to detail and effective communication skills are essential. Demonstrated experience leading teams is an asset. Functional use and familiarity with Windows MS Office, Microsoft Word and Excel will be expected along with field GPS experience. Must possess a valid Driver's License for operation of a motor vehicle in British Columbia.</p>
How to Apply	<p>Submit a resume with cover letter. Address to the attention of: Colin Chisholm RPF, Assistant Manager, Aleza Lake Research Forest Society. Please email colin.chisholm@unbc.ca and/or jullm@unbc.ca referencing the above job title.</p>
Additional Information	<p>This position will require working outdoors in all weather conditions as needed, physical fitness and ability to traverse demanding forested terrain on foot, practical field safety skills, driving a 4x4 vehicle in all weather conditions, use of ATV as necessary, and competence with GPS, mapping and compassing.</p>

Deadline for Applications 4:30 p.m., Nov. 15, 2013
